[June 23, 1876-tf. | September 29, 1877.

The grain crop of the United States this autumn is a vast increase amounts in the two main cereals, wheat and corn, to 325,000,000 bushels of the former, and 1,280,000,000 of the latter, according to the careful estimates of Mr. Walker, the statistician of the New York Produce Exchange. The movement of this Exchange. The movement of this enormous crop has just begun to be felt, as up to the past eight weeks the exportations were of last year's crop; but the sudden increase already noted gives good promise of a golden future. During the brief period mentioned our exports of wheat from the ports of New York, Mon-treal, Boston, Philadelphia, Baltimore, New Orleans and Portland have aggregated 11,525,188 bushels, against an exportation from the same ports during a corresponding period of last year of 3,938,951 bushels, showing an increase of 7,586,237 bushels. There has also been an increase of 708,234 bushels in the exportation of rye during the same time, and in peas an increase of 81,409 bushels. In corn alone has there been a falling off to the extent of 1,633,054 bushels in that time. The following table presents the increase of production and exportation in the two leading cereals in

EXPORTS rom all United States ports, by crop years

Estimated, not yet figured up closely. To arrive at the amount of corn the exports annually, as sent in the form of animal food. We also send believe, in what is now Bland coun-

'bloody shirt," to arouse the mad passions of the public; and the extreme partisans in the South can no longer ery "Radical" against everybody who don't sneeze when they take snuff. The occupation of both these disturbers of the peace of the country has been most effectually put down, and peace, gentle peace, comes with healing on its wings.

ganization, having virtually disbanded, all over the South, it leaves the great body of the people free to come together, without the fear of secret or open Radical accounts. The Republican party, as an orand exchange views upon measures affecting their future interest. Well, in this council we may ask "where are we?" and the response must be "altogether"—at least upon the only live issues of the day. So far as we are concerned we have no quarrel to make with those who adhere, with undying tenacity, to a name. Our Democratic friends of Tennessee are now with us on two out of the three measures that use to separate us. We go with them on the tariff question, and they are with us on the currency and internal improvements by the general government.
We long since abandoned a protective tariff, because it had answered the purpose for which it was created—the protection of our infant and keep it in the house ready for American manufactories—and it should now stalk out in history. Internal improvements and a national paper currency were cardinal tenets of the old Whig party, and are now cherished with filial devotion by every old line Whig. They are live issues to-day, and most gladly do we welcome to their support our old Democratic friends.

Rev. Samuel Ringgold.

Habbinal (Mo.) Courier, Semptember 28, ity Episcopal Church, this city, has accepted a call to Cedar Rapids, Ia. to which new field he will proceed next week. During his residence in Hannibal, Mr. Ringgold has endeared himself to a very large circle deared himself to a very large circle of friends not only within the limited at once to the page, but he turned at once to the page, but he turned at once to the page, but he turned at once to the advertising columns and commenced counting over their spaces.

"Well," said he, glancing up from the paper, "is that all? Is that the business of this town?"

I find that ignoring the grand division into two parties—Republican two little ones perished in the flames. his excellence as a Minister of the the remark: Gospel, have made him welcome in all the best circles of society.
